SECOND REQUEST FOR CORRECTED FILING RECEIPT

1. A First Request for Corrected Filing Receipt was filed on February 20, 2004 (Exhibit C). Unfortunately, no Corrected Filing Receipt was received and the error has not been corrected on any subsequent correspondence. Attached is a copy of the official filing receipt received from the United States Patent and Trademark Office in the above application for which issuance of a corrected filing receipt is respectfully requested.
2. There is an error with respect to the following data, which is incorrectly entered and/or omitted.

Error in Filing Date
11/13/03

Correct data
11/12/03

3. The error in the filing date of the application is due to the discrepancy of the date of actual deposit for the present application and the filing date assigned by the USPTO. According to 37 CFR §1.10, "any correspondence received by the U.S. Patent and Trademark Office (USPTO) that was delivered by the Express Mail Post Office to Address: service of the United States Postal Service (USPS) will be considered filed with the USPTO on the date of deposit with the USPS." A true and correct copy of the Express Mail Receipt No.: EV085810050US (Exhibit A) used in the filing of the present application indicates that the date of deposit with the USPS for the present application is November 12, 2003. Therefore, the USPTO should consider November 12, 2003 as the filing date of the present application. However, the acknowledgment postcard (Exhibit B) we received from the USPTO confirming filing of the present application incorrectly indicates the filing date of the application as November 13, 2003. Applicant, pursuant to 37 CFR §1.10 hereby respectfully requests correction of the filing date for the present application to November 12, 2003.

4. No fees are believed to be associated with this filing. However, in the event of any fee deficiency, you are hereby authorized to charge deposit account no.: 13-0110 any associated fees.

REQUEST FOR CORRECTED FILING RECEIPT

1. Attached is a copy of the official filing receipt received from the United States Patent and Trademark Office in the above application for which issuance of a corrected filing receipt is respectfully requested.
2. There is an error with respect to the following data, which is incorrectly entered and/or omitted.

Error in Filing Date
11/13/03

Correct data
11/12/03

Certification under 37 C.F.R. §§ 1.8(a)

I hereby certify that, on the date shown below, this correspondence is being deposited with the United States Postal Service in an envelope addressed to Commissioner for Patents, P.O. Box 1450, Alexandria VA 22313-1450 with sufficient postage as first class mail.

Date: February 20, 2004

3. There is a error in the filing date of the application as evidenced in the discrepancy of the date of actual deposit for the present application and the date of filing assigned by the USPTO. In support of the request to correct the filing date, please find a copy of Express Mail Receipt No.: EV085810050US (Exhibit A) and the acknowledgment postcard (Exhibit B). The express mail receipt number identified on both exhibits is identical indicating that both documents were associated with the same filing on November 12, 2003. The date of deposit on the express mail receipt confirms the November 12, 2003 filing date. The acknowledgment postcard also identifies documents filed with the USPTO on November 12, 2003. Although the USPTO acknowledged receipt of the documents, a filing date of November 13, 2003 was granted in error. Applicant hereby respectfully requests correction of the filing date for the present application.
4. No fees are believed to be associated with this filing. However, in the event of any fee deficiency, you are hereby authorized to charge deposit account no.: 13-0110 any associated fees.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
